

**REMARKS**

This is a full and timely response to the outstanding non-final Office Action mailed September 23, 2008. The Examiner is thanked for the thorough examination of the present application. The Office Action has, however, rejected all claims 1-21,  
5 and 23-26. In response, Applicants submit the foregoing amendments and the following remarks. Reconsideration and allowance of the application and presently pending claims are respectfully requested.

10           **Claims 1, 14, 16 and 17 are amended to fix some minor editorial errors.**

**Response to Claim Rejections Under 35 U.S.C. § 112**

As indicated in the Office Action, claims 1 and 12 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and  
15 distinctly claim the subject matter which applicant regard as the invention, and would be allowable if rewritten or amended to overcome the rejections.

In response, “forming each second word there from according to the control signal” recited in claim 1 and “forming each second word according to the control signal from them” recited in claim 12 are amended as “forming each second word  
20 according to the control signal” such that there is no inconsistency between the claims 1 and 12. In addition, since the limitation that each second word comprises the bytes of more than one of the first words is originally set forth in claim 1, it is not necessary to emphasize forming the second word “from the bytes”. Accordingly, no substantial change or new matter is introduced.

25           For at least the reasons, the rejections of claims 1 and 12 under 35 U.S.C. § 112, second paragraph, should be withdrawn. Claims 1 and 12 with all intervening claims should be allowable.

**CONCLUSION**

Applicants respectfully submit that all pending claims are in condition for allowance. Favorable reconsideration and allowance of the present application and all pending claims are hereby courteously requested.
